This is a depiction of an actual policyholder’s INDEX-5 annuity. This simply demonstrates the powerful benefits of Indexed Annuities with the annual reset interest crediting design. All of American Equity’s current products offer annual reset design. The actual Participation Rates for this time period, applied to the annual monthly average calculation as depicted, vary between 50% and 70%, and a Minimum Guaranteed Contract Value of 3% is assumed. The S&P 500 is an actual point to point calculation depicting the actual change in the index year over year.
